

Transfers heat from one room in your home to another

hydor

The Hydor Heat Transfer Kits allow you to warm other rooms in the house without needing to install additional heating equipment. They economically draw warm air from a room with a heater such as a fireplace or potbelly stove, and deliver it to other areas of the house. They are easy to install, economical to run and are ideal for warming one, two or three bedrooms before going to bed.

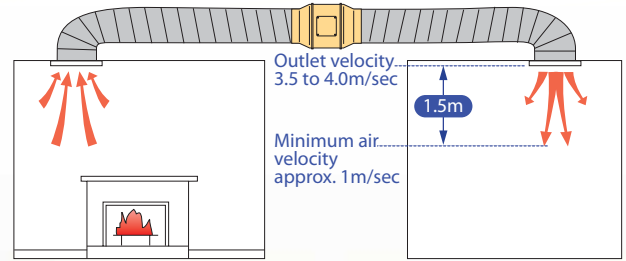

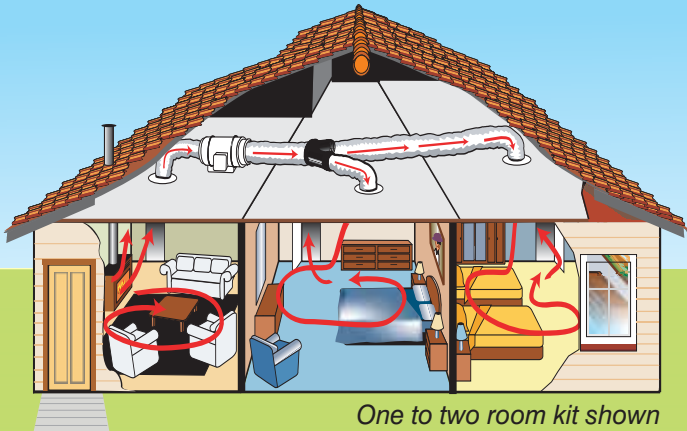

Features Include

- High air velocity into rooms ensures warm air reaches the occupants
- Kits include all necessary components
- Two and three bedroom kits include a 2-speed switch to vary air velocity
- High quality in-line fan includes plug and lead
- Easy to install and economical to run
